WR-500/90

Coin wrapper

The high-speed WR-500 wraps large volumes of coins and the standard speed WR-90 is suitable for any size of operation. Robust and reliable, the WR-500/90 coin wrappers deliver you smooth and exceptional performance day-in and day-out, increasing efficiency and accuracy to speed up wrapping while minimising errors.

The WR-500/90 is designed to withstand the rigors of high volume, continuous use without loss of speed, accuracy or efficiency.

The WR-500 and WR-90 provide fast and accurate coin wrapping

Coin wrappers have become essential equipment for CIT/armoured carrier companies, mints and other industries that have a requirement to package large volumes of coin. The Glory WR series has met this need, with enhanced speed and performance. The WR-500 and WR-90 wrap coins more smoothly and efficiently than conventional wrappers.

Continuous operation

With newly designed coin transportation and stacking units, the WR-500 and WR-90 deliver a smoother performance, and have drastically improved continuous operation.

Improved operability

Utilising a built-in LCD control panel, screen visibility and operability are improved dramatically. The processing mode and data content can be checked quickly and easily. Furthermore, an easy-to-understand illustrated operation guide provides accurate and applicable support for the user.

Multi-language display

Different languages can be selected on the LCD panel, such as English, German, French, Spanish (default is English).

Advanced detection capability against forged coins and foreign materials*

Detection of counterfeit coins and foreign materials has been improved. A non-designated denomination or foreign material coins are automatically rejected to a dedicated box. This enables the WR to maintain a speedy and accurate wrapping operation.

*WR-90 available with optional alloy detection. WR-500 Euro and China models include alloy detection as standard, optional for all other countries.

	WR-500	WR-90
Counting speed	3,000 coins/min. (max.)	2,000 coins/min. (max.)
Wrapping speed	40 rolls/min. (max.)	25 rolls/min. (max.)
Hopper capacity	Up to 18,000 coins (€0.01)	Up to 9,000 coins (€0.01)
Accepted coins <small>*please contact us to discuss the feasibility of coins</small>	Max. 32 denominations Diameter: 0.6" – 1.3" (15 mm – 33 mm) Thickness: 0.04" – 0.14" (1.00 mm – 3.5 mm)	Max. 32 denominations Diameter: 0.6" – 1.3" (15 mm – 33 mm) Thickness: 0.04" – 0.14" (1.00 mm – 3.5 mm)
No. of coins wrapped in one roll	Preset for each denomination	Preset for each denomination
Power supply	AC100 – 120V, 220 – 240V ±10%, 50/60Hz	AC100 – 120V, 220 – 240V ±10%, 50/60Hz
Dimensions (W x D x H*) <small>*Except display, paper stand and chute</small>	17.7" x 24.9" x 43.3" (450 mm x 633 mm x 1,100 mm)	17.7" x 24.9" x 40.7" (450 mm x 633 mm x 1,035 mm)
Weight	330.7 lbs. (150 kg)	330.7 lbs. (150 kg)
Power consumption	Less than 400 W	Less than 400 W
